SELLERS PROPERTY DISCLOSURE STATEMENT

1 Woodside Drive, Kirkwood, Pennsylvania

A seller must disclose to a buyer all known material defects about property being sold that are not readily observable. This disclosure statement is designed to assist the seller in complying with disclosure requirements and to assist the buyer in evaluating the property being considered.

This statement discloses the seller's knowledge of the condition of the property as of the date signed by the seller and is not a substitute for any inspections or warranties that the buyer may wish to obtain. This statement is not a warranty of any kind by the seller or a warranty or representation by any listing real estate broker, any selling real estate broker or their agents. The buyer is encouraged to address concerns about the conditions of the property that may not be included in this statement. This statement does not relieve the seller of the obligation to disclose a material defect that may not be addressed on this form.

A material defect is a problem with the property or any portion of it that would have a significant adverse impact on the value of the residential real property or that involves an unreasonable risk to people on the land. The fact that a structural element, system or subsystem is near, at or beyond the end of its normal useful life is not by itself a material defect.

INFORMATION AND ACKNOWLEDGEMENT LEAD-BASED AND/OR LEAD-BASED PAINT HAZARDS

LEAD WARNING STATEMENT

Every Purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. Seller of any interest in residential real property is required to provide Purchaser with any information on lead-based paint hazards from risk assessments or inspections in Seller's possession and notify Purchaser of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.
